

## Electricity supply for customers within an embedded network:

### Details and Disclosure Document

This document forms part of your agreement for the supply of electricity to your premises within Marina Square. It should be read in conjunction with our standard terms and conditions of electricity supply for small customers within an embedded network.

#### Charges

##### 1. Energy Charges

Energy Charges as at the date of this document are as follows. Please note that these are subject to change (see further below).

##### Tariff: Electricity Residential Single Rate

###### Usage Charges:

	c/kWh, GST-exclusive	c/kWh, GST-inclusive
<b>Usage Charges</b>	20.87	22.96

\* Note: these charges are based on a single rate for all times of day. Should you wish to change to a time of use tariff, please contact us by telephone. We may also move you to such a tariff, by notice to you, if we think this is appropriate having regard to your usage.

###### Daily Supply Charges:

	c/day, GST-exclusive	c/day, GST-inclusive
<b>Daily Supply Charges</b>	83.39	91.73

##### 2. Variation in charges

We will review our Energy Charges at least twice per year, with a view to keeping them competitive with comparable pricing offered by the largest retailers. We will publish our revised Energy Charges on our website, and we will also give you at least 10 Business Days' notice of the change.

##### 3. Other charges (if applicable) as at commencement of supply:

A number of other charges may apply, depending upon your circumstances. Some of the more common charges, and the amount of them as at the commencement date, is set out below.

	Amount, GST-exclusive	Amount, GST-inclusive
<b>Late payment fee</b>	\$10.90 (GST Exempt)	\$10.90 (GST Exempt)
<b>Disconnection charge</b>	\$10.55	\$11.61
<b>Reconnection charge</b>	\$10.55	\$11.61
<b>Special meter read charge</b>	\$10.55	\$11.61

A full list of charges that may apply, depending on your circumstances, can be found on our website. These charges and their amounts may change from time to time, on at least 10 Business Days' notice.

#### **4. Network charges**

If you later decide to buy your electricity from a different supplier who is an authorised electricity retailer, you will still need to pay us network charges for as long as you occupy the premises, as we in turn will still continue to incur such costs in respect of your premises. You should make arrangements with your new authorised electricity retailer to ensure that the charges you pay it do not include a component for this, unless it is part of an arrangement under which the new retailer agrees to pass those charges on to us (so that you can pay the new retailer instead of us).

These network charges will be calculated on a “shadow pricing” basis, meaning that the charge will be equivalent to the charge you would have paid your local electricity distributor had your premises been connected directly to their wiring. For this purpose, the charge will be taken to be calculated on a time of use basis.

#### **5. Concessions or rebates**

Information on various government concessions or rebates and eligibility requirements to receive them will be published on our website. It is your responsibility to determine whether you are eligible for any particular concession or rebate.

#### **6. Bill frequency**

We will bill you monthly for the charges.

#### **7. Payment difficulties**

If you are unable to pay your bills due to financial difficulty, please contact us so we can discuss options to assist you.
