

Electricity supply for customers within an embedded network:

Details and Disclosure Document

This document forms part of your agreement for the supply of electricity to your premises within Marina Square. It should be read in conjunction with our standard terms and conditions of electricity supply for small customers within an embedded network.

General

1. About us

As explained in our terms and conditions, Evergy Pty Ltd ACN 623 005 836 (**Evergy**) is an authorised retailer under the National Electricity Law. A reference to “we” or “us” in this agreement is a reference to Evergy.

2. Term and cooling-off period

(a) No fixed term

This is not a fixed term contract. You can give us notice at any time that you wish to terminate this agreement. No penalty or early termination fee will apply if you wish to do this.

(b) Cooling-off period

You have a 10 Business Day cooling off period during which you may cancel this agreement without any charge or penalty. That cooling off period commences on the later of the date you enter into this agreement, and the date that you receive the Disclosure Information about this agreement. We may delay supply of electricity to your premises until the expiration of the cooling off period. If we do supply electricity during this period, you are not required to pay for it if you cancel this agreement during that period. If you wish to cancel this agreement during that period, you must notify us, orally or in writing, clearly indicating your intention to cancel this agreement.

3. Credit check and security deposit

You give us your permission to obtain a credit check of your credit history.

If and to the extent permitted by the Regulatory Instruments, we may ask you to provide a security deposit, or vary the amount of a security deposit, after you enter into this agreement.

4. Electronic communications

If you provide us with an email address for bills, we will send bills electronically to that email address. Similarly, if you provide us with a contact email address for receiving notices electronically, we may send notices and other documentation to that email address. In each case this will be sufficient for us to assume that you have received the documentation or information. We will not be required to send you physical copies to a postal or street address, unless you asked for that at the time of sign-up or contact us asking for that to change going forward. We are entitled to assume that an electronic communication to us from those email addresses is from you.

5. Variation of this agreement

We may from time to time vary this agreement going forward. We will give you at least 10 Business Days’ notice of any such change. If you do not terminate this agreement effective from before the change comes into effect, you agree to comply with the agreement as varied.

6. Transfer of this agreement

- (a) If another person, instead of us, becomes entitled to onsell electricity to your premises within the embedded network, we may transfer our rights and obligations under this agreement to that person, and notify you of that transfer.
- (b) You consent to any such transfer, without the need for any further documentation or agreement, and you agree to comply with this agreement in favour of that person.

7. Complaints and dispute resolution

- (a) If you have a query, complaint or dispute, you can contact us using the contact details in clause 8 below.
- (b) We will handle a complaint in accordance with our standard complaints and dispute resolution procedures, which can be found on our website, or provided to you on request. We will inform you of the outcome of our review of your complaint.
- (c) If you are not satisfied with our response to the complaint, you may refer the complaint or dispute to the energy ombudsman, where the ombudsman has jurisdiction.
