Demand charges

| Name                         | Description                                                                                                                                                                                                                                                                                                        | Demand charge rate  |
|------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| Peak Demand c per kW per day | Demand charges are applied to the maximum half hourly kW power reading over the 12 months prior to the bill being calculated. The chargeable kW reading occurs between 3pm to 9pm on working weekdays. The demand charge is in cents per kW per day and is calculated on the number of days in the billing period. | \$0.4480 per/kW/day |

## Plan Fees

### Other fees

|                                                                                                                                     |                 |
|-------------------------------------------------------------------------------------------------------------------------------------|-----------------|
| <b>Payment processing fee</b>                                                                                                       | <b>1.43%</b>    |
